

Service & Maintenance Workshop - Fixed Plant

Thursday
22nd July, 2021

8.30am - 4.00pm
**Service & Maintenance
Workshop**
*(includes morning tea
and lunch)*

William Adams
32-42 Spencer St
Sunshine West

Service & Maintenance
Workshop Proudly
Supported by:

A substantial day is planned for CMPA Members and other interested industry contributors in the west and northern suburbs of Melbourne.

The CMPA and a number of Associate members are holding this workshop to provide operators with an understanding of how to properly maintain components of their fixed plant to ensure they are running to the best of their ability.

The one-day workshop is an interactive process which encourages the active involvement of the participants rather than a lecture session.

A provisional agenda is given below:

8.30 am — Registration

Presentations by:

AVWELD / Alloys International presentation on repairs and life extension to high wearing equipment. Welding and patch repair consumables.

HMA Flow & Industrial presentation on maintenance of drive systems (gear boxes, belt drives, electric motors and bearings)

Oli Vibrators and ToThink Engineering (Aust) presentation on preventative maintenance including vibrators and vibrating screens.

Site Visits:

12.30pm — Lunch at AVWELD, followed by site tour of the factory

1.30pm — HMA Flow, demonstration of a vibration analysis tool

2.00pm — William Adams, tour of workshop and presentation on Contamination Control

R S V P Thursday, 15th July 2021
