Thursday
30th March 2023

8.30am - 4.00pm
Safety Management
Systems & RCSD
Workshop
*(includes morning tea
and lunch)*

Mantra—Epping
250 Cooper Street
Epping

Safety Management &
RCSD Workshop
Proudly Supported by:

The one-day workshop is an interactive process which encourages the active involvement of the participants rather than a lecture session. And is intended for quarry managers, supervisors and HSE officers.

Safety Management Systems—Anita Macartney, Mactown Consulting

This session will provide participants with the safety tools to meet their legal occupational health and safety (OHS) obligations and improve how they document systems of work.

The tools developed for **WorkSafe Victoria** will include:

A Safety Management System (SMS) - ready to use manual with policies, procedures, and templates in accordance with the OHS Act, Regulations, and ISO 45001;

Safety training material - will include fundamentals of safety risk management, an introduction to the SMS, and key legislative requirements.

WorkSafe Victoria (tbc)

RCSD Management—David McKelvie, SafeMix

This CMPA Respirable Crystalline Silica Dust (RCSD) Management Guideline aims to support members in meeting the requirements of the Victorian Occupational Health and Safety (OHS) Act 2004, the OHS Regulations 2017 and specifically the OHS Amendment (Crystalline Silica) Regulations 2021. The session will highlight all the CMPA tools available to support compliance. It will

- Provide members with appropriate management practices required to minimise potential health risks associated with RCSD arising from extractive industry and concrete recycling operations;
- Provide members with a template they can populate so as to establish a site specific RCSD Hazard Control Plan; and

Mask fit testing demonstration supplier (tbc) / RCSD monitoring supplier (tbc)

R S V P Monday, 20th March 2023

I will attend the Service & Maintenance Workshop and the site visit
\$125 member \$150 other
